PREFACE.

THE following is a list of Jamaica books and pamphlets, newspapers and maps, most of which are represented in the library of the Institute of Jamaica : the titles of those absent from its shelves are prefixed by an *.

It need hardly be added that copies of works not represented will be gladly received by the Institute ; and that the titles of any books or pamphlets unrecorded will also be welcomed

The books have been classified under the various headings suggested by the works themselves, as well as by a study of Jamaica History.

The list was originally compiled for insertion in the "Jamaica Handbook" for 1902. For the sake of space the titles were in some instances shortened, and the sizes of the volumes and other bibliographical information omitted. But, even when compressed as much as possible, the list was found too long for insertion in the Handbook ; and it is accordingly issued in its present form.

A few notes of general cross-reference have been added to the classification, but complete cross-references would be more voluminous than the list itself.

All books treating on the West Indies generally could of course be fairly included in a Jamaica Bibliography, but, as this would have unduly swelled the list, it has been thought advisable to include only such West Indian books as deal with Jamaica alone, adding only a few of the principal of those which deal chiefly with this island. All books and pamphlets dealing solely with Jamaica have been catalogued, without reference to merit.

The following list is, therefore, really rather a series of notes for a bibliography of Jamaica than a complete bibliography itself. It is, perhaps, as a bibliography most incomplete with respect to botany, for which reference should be made to Urban's "Symbolae Antillanae."

The works are arranged, under their severa headings, in chronological order. Strict chronology has, however, been departed from in certain cases, in order to place subsequent editions with the first issues of various works.

Magazine articles which have been reprinted in pamphlet form have, in common with pamphlets originally published as such, been treated as pamphlets, and classified with the books. Those which have not been reprinted are placed together under Magazine Articles.

An index of names of authors and subjects of biographical notices will be found at the end.

October, 1902.

A reduction in the favour of Members is made in the price of the subscription to the courses of Institute of Jamaica Lectures and Classes. They also receive copies of the current publications of the Institute, either gratis or at reduced rates, and are admitted free to exhibitions held by the Institute.

SUBSCRIBERS TO THE LIBRARY pay three shillings for three months' right to borrow books and magazines on the lines of the ten-shillings-a-year membership, or four shillings and sixpence for the facilities of the fifteen-shillings-a-year inmembership. Unless recommended by a member of the Board, they must lodge a deposit of ten shillings.

PREFACE.

OWING to lack of funds it has hitherto been found impossible to print the supplement to the printed catalogue of books in the Library of the Institute of Jamaica, which appeared in 1895—the supplement existing only in card-catalogue form, available for use by readers in the Library, but not for those at a distance.

The liberality of a friend of the Institute has, however, rendered it possible to make a beginning with the portion of the supplement connected with Jamaica. It has been considered advisable to print it, not, like the catalogue, in alphabetical order, but like “*Bibliographia Jamaicensis*” in classified form in chronological order; and the opportunity has been taken of adding the titles of those works known to exist but not in the Library (prefixed by a *) which have been ascertained since the publication of “*Bibliographia Jamaicensis*” in 1902. The additions to the Jamaica section of the Library (books and pamphlets) made since 1895 number 1,236. When the library supplement was completed it was thought undesirable to include the entries which appear in “*Bibliographia Jamaicensis*,” and these (to the number of 519) have been eliminated.

The only titles that appear in both works are those which had a * in the “*Bibliographia*” and have since been added to the Library.

The press-marks of books in the Library have been added.

For the sake of economy all titles have been abbreviated. Where the place of publication is not given it is London or, in some cases, Kingston.
